Select the Right Product for the Right Surface and the Right Job

**Anti-Rust Industrial Maintenance Enamel**  
For interior & exterior uses. Resistant to moisture, chemicals and abrasion with deep penetrating adhesion.  
GL #72216 - 21952 Primer White  
GL #114901 - 21951 Primer Red Oxide  
GL #72043 - 21900 White  
PL #139547 - 21900 White  
GL #130409 - 21934 Gray  
QT #129484 - 23703 Primer Galvanized  
GL #139660 - 23703 Primer Galvanized

**Guardian Pro Exterior 588 Oil & 488 Latex Primer**  
Seals exterior bare woods for proper topcoat holdout. May be topcoated with oil or latex.  
GL #72059 - 488 Latex  
PL #72060 - 488 Latex  
GL #72002 - 588 Oil  
PL #72003 - 588 Oil

**Medallion 4260 Series Semi-Gloss Direct To Metal**  
Latex finish for exterior surfaces. Comes in 6 factory colors. Protects against rust.  
GL #175727 Bright White  
PL #200465 Bright White  
GL #175728 Classic Green  
GL #175729 Classic Red  
PL #200466 Classic Red  
GL #175730 Classic Brown  
GL #200967 4264 Light Stone  
GL #200968 Ash Gray

**FS White 3100 Satin Exterior Latex Building Paint**

High quality latex finish for exterior and interior surfaces. Extremely durable and resistant to yellowing.  
GL #200966 White  
PL #189882 White  
Exterior Latex Tint Bases  
GL #200597 - 4102 med base  
PL #189884 - 4102 med base  
GL #200598 - 4105 clear base  
PL #189885 - 4105 clear base

PREPARATION METHODS  
1. Solvent Cleaning    2. Chemical Stripping    3. Blast Cleaning    4. Power Tool Cleaning    5. Hand Tool Cleaning    6. Pre-Treatment/Painting    7. Pre-Treatment/Priming    8. Mildew Removal    9. Concrete Etching    Refer to Paint Reference Guide for specific and/or detailed information

**FS 974 Yellow Zinc Chromate Metal Primer**  
A superior rust inhibiting primer for bare ferrous metal such as iron and steel. Provides excellent adhesion under oil or latex finish coats. (Do not topcoat with epoxy or acrylic urethane).  
GL #72075

**FS 2590 Gray Fast Dry Metal Primer**  
A fast drying, rust inhibiting, gray metal primer formulated for use over properly prepared ferrous metal surfaces. Also provides excellent adhesion as a prime coat on fiberglass surfaces. Fast dry allows for top coating after 1 hour.  
GL #72465

**FS 998 Ready Mix Aluminum**  
For use on exterior metal or wood surfaces. Bright, heat reflective heavy-duty aluminum paint.  
GL #72104  
PL #72105

**FS 969 White Polyurethane Gloss Enamel**  
Excellent gloss retention, gas, oil and grease resistance. Recommended for areas where occasional splashes and spills may occur.  
GL #72083  
PL #72084

**FS 1500 White Self Priming Tank Enamel**  
Easy to use, rust inhibiting product which protects metal against mold and fungi growth.  
GL #72458  
PL #72459

**FS 977 Soy Zinc Primer/Finish**  
Provides excellent bonding and surface rust resistance. For use as primer coat or finish coat of ferrous metal or galvanized metal. Zinc coating reconditions deteriorated galvanized metal extending its life and effectiveness.  
GL #72101
